### Description

**MARCH SPECIAL - Get a FREE Portable Unit (Value \$279) with Purchase of Pool Unit**

Special is limited to one per customer/household. Shipped with purchased unit, no split orders.

The Dynamically Enhanced Natural Action Swimming Pool Structured Water Unit allows users to bring structured water into their swimming pool. Reduce chlorine/chemical use, reduce chemical harshness, and soften your pool water for a more enjoyable swimming experience. The line of Dynamically Enhanced Units have a flow-form inside that is made from a combination of proprietary materials that dynamically enhance the energy of the unit and create a static energy that exists even before the water flowing through the unit is structured.

The Pool Unit is similar to the Super House Unit except that it has a larger pipe fitting. A lot of pool systems have pipes larger than 1" so this unit is bigger than our House Unit and is designed to adapt to 1 1/4", 1 1/2" and 2" Pipes.
